European Shoot

Oct 23 Private European  
Shoot

Oct 30 Club European  
Shoot

Nov 26 Club European  
Shoot

*Members Gordy Coldagelli &  
Dick Deloria and family*

## SHARING

This crazy past year has found us making changes not just in how we run our business but in our lives, too. We hope this year you were able to stay safe and keep your sanity. We had a major ah-ha moment when we canceled our December European shoot. By the first week in November it seemed like the virus finally reached us and we had customers and guides calling that they had been exposed or contracted the virus. We opted to pull the plug on our November field hunts and our last European shoot and close the doors for the season. And now we feel like that's the way we want to go from now on. So as you're thinking about your Early Bird deposit please keep in mind that we will be shutting down the field hunts on November 4<sup>th</sup>. We realize that will be a hard change for some of our late season hunters but with our life changes we feel this is the right decision for us.

## PROJECTS

Major brushing was completed in the Rutka field. You will find it much nicer without the tall willows to shoot around. Spring burning is planned but much depends on weather conditions and being able to get a permit.

## MEMBERSHIP RENEWAL

Membership renewal information is attached. We hope you take advantage of the Early Bird Special to save even more (up to \$1.00 a bird)! All birds need to be used by November 4<sup>th</sup> as we'll be closing the doors for the season at that time. So, please, adjust your order accordingly. We will not be carrying any birds over but we will honor your Early Bird deposit for the following year. Bird prices remain the same as last year.

## CHANGES and SLOWING DOWN

Many of you know that we had to cancel out Alaska trip last spring (due to Covid). We were busy, like all of you, hunkering down and trying to stay safe. Well, as we were isolating we also did some brain storming. Last year we decided to stop guiding deer hunters (after 40 years) and we also stopped producing and selling our "famous" deer scent. That had more to do with DNR over-regulating than anything else. We also decided to close our sporting clays course and sell all the clay pigeon traps from the sporting clays course. If you're interested just give us a call.
